👍 Getting Started

Hi test2,

Welcome to Learn2Succeed and thank you for choosing our programmes. We trust that this programme will improve your skills, and help you excel in your career.

Should you have any queries about the programme, or anything seems unclear, simply send the lecturer a message in the *"Support"* section. The lecturer will respond to your enquiry as soon as possible.

On this page, the *"Dashboard"* section, you can see your progress and score to date, as well as dates that are important/relevant to your chosen programmes.

To start your programme, select the programme you wish to continue. A sub-menu will appear with chapters/pages for the selected programme. After each chapter/page remember to click on the *"Save Progress and Continue"* button to log your progress.

Depending on the programme, chapters/pages may be locked to prevent from continuing after a test or assignment. In a case like this, you must first pass the test or assignment before the next chapters/pages are unlocked.

Well, this is it for now. Good luck and enjoy!
