

Explore Cascades

Welcome to Cascades

- your tool to engineer time to have more time for what really matters.

You enjoy full access to all Functionality and are guided with

Online Help Files at almost every level

Getting Started

1. Download the Setup Guideline to save time
– click the link at the bottom of the page
2. Setup your Company
3. Create your Assignees along with their Access Permissions.
by the way – we talk Assignees not Users
4. Create your Contacts – Customers, Suppliers, etc.
the system allows importing of basic Contact information
5. Create the Recurring & Non-recurring Tasks to be performed by each Assignee

Each Assignee will have their own To-Do- List
and depending on permissions settings could have access to other Assignees

You have a 14 day exploration period before activating Cascades and we are available all along to guide you.

Any Questions you may have can be mailed to
cascades@avitus.co.za
